Joe Aylor is UCOR's Chief of Staff, responsible for coordinating the resources required to deliver the President's operational vision and support achievement of DOE Office of Environmental Management-related goals and missions. Joe oversees the External Affairs, Communications and Community Affairs Office; Strategy Development and Management; and Government and Stakeholder Interface. He brings 17 years of experience spanning the Engineering, Procurement, Construction, and Project Management industry.

Previously, Joe served as a Business Development Director for Amentum's Nuclear & Environment Business Unit, where he was responsible for the development of new business and the expansion of existing business for the DOE, NNSA, U.S. Army Corps of Engineers, and numerous federal government and state agencies. Notable wins include the \$1B DOE Legacy Management Support Services contract.

Before joining Amentum, Joe was a Marketing & Business Development Manager for Bechtel National, Inc. In that role, he led pursuits for the Defense & Security Business Line for customers such as the Department of State, U.S. Air Force, U.S. Army Corps of Engineers, and the Kingdom of Saudi Arabia Ministry of Defense. Notable wins include the \$1.6B Arnold Engineering Development Complex Test Operations and Sustainment contract.

Prior to this role, Joe served in various construction and project management roles on the >\$4B Bechtel Parsons Blue Grass Chemical Demilitarization Project in Richmond, Kentucky. He managed complex construction scopes of work and oversaw the turnover and startup of numerous systems and facilities that resulted in several performance-based incentives. He also led the project's OSHA Voluntary Protection Program application that resulted in achieving STAR status.

Joe started his career with Bechtel Jacobs Company in Oak Ridge, Tennessee, performing a variety of roles in support of environmental cleanup activities at ETTP and ORNL. He also certified as a Lean Six Sigma Black Belt with his most notable improvement being the implementation of the RFID system for waste transportation that saved the company more than \$25M and earned recognition from DOE. During this time, Joe also volunteered for the Hurricane Katrina Relief Effort where he was a Site Manager in Hancock County, MS. He was responsible for trailer delivery and installation operations, contributing to the delivery of over 35,000 temporary housing units for 100,000 Mississippi residents, resulting in a Letter of Recognition from FEMA.

Joe received both his Bachelor of Science degree in Civil Engineering (2003) and Master of Business Administration (2012) from the University of Tennessee. He serves on the Chancellor's Associates Board for the University of Tennessee - Knoxville, as well as the External Advisory Board for the Georgia Institute of Technology Nuclear and Radiological Engineering and Medical Physics Program. He is the Vice President for the Eskimo Escapades Foundation, mentor for American Corporate Partners Veterans Mentoring Program, and a volunteer for the Patricia Neal Innovative Recreational Cooperative.
