Emotional support when you need it

Aetna Behavioral Health AbleTo Support

Taking charge of your life

Some life events can be overwhelming. Like having a baby. Or finding out you have diabetes or heart disease. They signal that you may need to make some changes.

You can also feel emotions like worry, depression, confusion or anger. All of these feelings are normal. But they can hinder your ability to take control and make healthy lifestyle changes.

It's all a matter of control. And it's important to know and feel that you can control the condition, instead of the condition controlling you.

Real help that fits your schedule

Aetna's AbleTo program can help you:

- Work through these normal emotions
- Understand and stick with your treatment plan
- Know the types of changes you need to make
- Feel like you are in control of your health and your life

It's part of your behavioral health plan. But it works differently from traditional programs. It makes it easy to get the help you need.

Convenient eight-week program.
Get counseling and coaching
combined by secure video or
phone. Just call **1-855-773-2354.**

What is AbleTo?

AbleTo is a leading behavioral health provider that Aetna has teamed with to create this new program.

The goal is to offer support in ways that make it easy for you to participate in and complete the program. And help you see that you are in control. That you can make the changes needed to live healthier.

Real help that works

Web-based videoconferencing makes it possible for you to meet face-to-face with your team. Or you can simply talk on the phone, if you prefer.

This removes the time and hassle of having to drive to appointments.

Plus, you choose the times that work best for you. During the day, in the evening or on weekends.

You'll work with two AbleTo specialists for eight weeks:

- Once a week with a therapist, to address emotional challenges like depression, stress and anxiety that can come with a medical diagnosis
- Once a week with a behavior coach, to identify health goals and develop an action plan

That's two sessions a week and a final meeting with the therapist. Sixteen sessions total. All for one copay a week.

Consider AbleTo support if you have experienced one of the health conditions or life changes listed below.

Health conditions:

- Breast and prostate cancer recovery
- Heart problems
- Diabetes
- Depression
- Digestive health
- Pain management
- Respiratory problems
- Substance abuse

Life changes:

- Depression/anxiety
- Postpartum depression
- Caregiver status (child, elder, autism)
- Grief and loss
- Military transition

How to get started

An Aetna or AbleTo representative will call you to explain more about the program and how it can help you. They can also answer your questions about the cost of this benefit. Your plan's copay and coinsurance will apply.

You'll be asked to confirm information for privacy purposes.

If you are interested in participating, let us know. It's as easy as calling AbleTo at **1-855-773-2354**, Monday – Friday from 9 a.m. – 8 p.m. ET. You can ask questions and be screened by an AbleTo staff member.

Choose AbleTo support. And get started today. Or you can let your Aetna case manager know that you'd like to participate.

The program and flyer are also available in Spanish.

Aetna is the brand name used for products and services provided by one or more of the Aetna group of subsidiary companies (Aetna). The Aetna companies that offer, underwrite or administer benefits coverage include Aetna Health Inc., Aetna Health of California Inc., Aetna Health Insurance Company of New York, Aetna Health Insurance Company and/or Aetna Life Insurance Company (Aetna). In Florida, by Aetna Health Inc. and/or Aetna Life Insurance Company. In Maryland, by Aetna Health Inc., 151 Farmington Avenue, Hartford, CT 06156. Aetna Behavioral Health refers to an internal business unit of Aetna. Each insurer has sole financial responsibility for its own products.

Aetna does not recommend the self-management of health problems. Health information programs provide general health information and are not a substitute for diagnosis or treatment by a physician or other health care professional. Aetna does not provide care or guarantee access to health services. Information is believed to be accurate as of the production date; however, it is subject to change.
