

I-13 Land Use Control Implementation Plan Operating Instructions

The purpose of this instruction is to clarify the process by which the Oak Ridge Reservation (ORR) LUCIPs will be prepared/tracked.

The following instructions have been established to address the LUCIP process:

1. Only one LUCIP will be prepared for each signed Record of Decision (ROD).
2. The LUCIP will be approved by the three Parties to the FFA.
3. Once approved, the LUCIP will be attached to the approved Land Use Control Assurance Plan (LUCAP) for the ORR.
4. Additions and/or changes to the approved LUCIP will be proposed and approved via subsequent primary documents (RAWP, PCCR, RAR) to the same ROD or proposed within an annual Remediation Effectiveness Report (RER) and approved following the process established in Operating Instruction I-12. Once the proposal has been approved, the change(s) will be added to or changed in the appropriate LUCIP list attached to the LUCAP.
5. All changes/modifications will be in accordance with the LUCAP.
