

2012 Pollution Prevention and Waste Minimization Recognition

2012 Pollution Prevention and Waste Minimization Recognition

Recycling and Reuse

Presented to **ORNL Surveillance and Maintenance**
for Reusing 25 yd³ of gravel from the Molten Salt Reactor Experiment facility as road cover at the Solid Waste Storage Area

2012 Pollution Prevention and Waste Minimization Recognition

Recycling and Reuse

Presented to **ORNL Waste Disposition Operations Team**
for Reusing more than 2,900 concrete shielding blocks from the Transuranic Waste Storage Facility

2012 Pollution Prevention and Waste Minimization Recognition

Recycling and Reuse

Presented to **Poplar Creek and BOF D&D Team**
for Reusing large quantities of demolition debris as a burial ground cover and recycling a particulate stack monitor

2012 Pollution Prevention and Waste Minimization Recognition

Waste Minimization

Presented to **Public Affairs and Communications**
for Effectively converting a large circulation newsletter to electronic distribution

2012 Pollution Prevention and Waste Minimization Recognition

Recycling and Reuse

Presented to **Tank W-1A Project Team**
for Reusing large amounts of project equipment

2012 Pollution Prevention and Waste Minimization Recognition

Recycling and Reuse

Presented to **Y-12 Surveillance and Maintenance**
for Reusing 1,032 yd³ of asphalt as clean fill at the Environmental Management Waste Management Facility

Managing the Pollution Prevention/Waste Minimization aspect of UCOR's Environmental Management Systems on the path toward environmental sustainability!
