

## **URS-Led Team Selected by U.S. Department of Energy to Provide Remediation Services to East Tennessee Technology Park**

### **Contract Has Maximum Value of \$2.2 Billion to Team**

May 02, 2011 08:30 AM Eastern Daylight Time

SAN FRANCISCO--(BUSINESS WIRE)--URS Corporation (NYSE: URS) today announced that a URS-led team has been awarded a contract by the U.S. Department of Energy (DOE) to provide remediation and cleanup services to the East Tennessee Technology Park (ETTP) in Oak Ridge, Tennessee. The ETTP site consists of a number of industrial facilities originally used to support the Manhattan Project during World War II. The contract has an initial five-year term, followed by a four-year option period, and has a maximum value of \$2.2 billion to the team, assuming the option is exercised.

The contractor team includes URS Energy & Construction, Inc. and CH2M HILL Constructors, Inc. Restoration Services, Inc. is providing subcontractor services as well. Under the terms of the contract, the team will manage and execute cleanup work at ETTP, providing decontamination and decommissioning services.

Tom Zarges, President, Energy and Construction for URS said, "We are pleased that the Department of Energy is confident in our team's ability to successfully execute this work, which will contribute to the cleanup of the Oak Ridge Site. URS is a leading provider of remediation and decommissioning services at legacy nuclear sites throughout the U.S., and we look forward to deepening our relationship with the DOE through the execution of this project."

URS Corporation (NYSE: URS) is a leading provider of engineering, construction and technical services for public agencies and private sector companies around the world. The Company offers a full range of program management; planning, design and engineering; systems engineering and technical assistance; construction and construction management; operations and maintenance; and decommissioning and closure services.
