No Further Action Decisions

No Further Action (NFA) means that an approved final ROD RAR or a final ROD has not identified a risk to the environment or human health that would warrant additional action at that particular site based upon the current or future anticipated use. NFA sites may have LUCs. Sites designated as NFA could also require additional evaluation/remediation if land use objectives or environmental risk assessment levels change. In this case, the site would be moved back to Appendix C.

Approved Covenant Deferral Requests

Covenant Deferral Requests

Covenant Deferral Requests (CDRs) are approved by the 3 parties to allow the transfer of NPL areas where all media has not been fully remediated under CERCLA. Upon completion of all ROD(s) identified remediation activities for the transferred area, the CDR will be removed from this list.
