# Save Money on Your Health and Dependent Care Expenses – It's Easy!

UCOR offers you **two Flexible Spending Accounts (FSAs**) to help you set aside money (pre-tax) for eligible health care and dependent care expenses – for you and your eligible IRS dependents. The money is deducted from your paycheck before taxes are taken out, just like your medical premiums (or other pre-tax deductions). You can elect to contribute up to the current IRS limits of \$3,050\* in the Health Care FSA and up to \$5,000 in the Dependent Care FSA for the 2024 plan year.

**Action required!** For the 2024 plan year, current employees must re-enroll or enroll for the Health Care FSA and/or Dependent Care FSA during 2024 Annual Benefits Enrollment. New hires must enroll when eligible for benefits during the new hire enrollment period to participate in the 2024 FSAs.

## You can use an FSA for the following eligible expenses (sample list)

### Health Care FSA\*\*

- Any costs above what your health plan pays, including deductibles and copays
- Prescriptions
- Over-the-counter drugs prescribed by your doctor
- Certain non-drug over-the-counter items, such as contact lens cleaner and bandages

## **Dependent Care FSA**

- Licensed nursery school and childcare centers
- Private day care providers and nannies
- Licensed care for disabled dependents
- Care for an elderly parent whom you claim as a dependent on your federal income tax return
- Education expenses for a child not yet in the first grade, such as day care expenses

You cannot use the Health Care FSA to pay for dependent care expenses, and you cannot use the Dependent Care FSA to pay for health care expenses. If you expect to incur expenses like those shown above, you should consider enrolling in an FSA. Visit **www.PayFlexDirect.com**, or refer to IRS Publications 502 and 503, to get a full list of eligible expenses for both FSAs.

## See how you save

#### FSAs reduce your taxable income.

Consider how Susan saves. She sets aside **\$1,500** in an FSA for the year. She incurs **\$1,500** worth of eligible expenses.

Susan's tax savings mean she pays only \$1,170 for \$1,500 of expenses.

\$330 22% federal income tax

**Susan pays \$1,170** 

This hypothetical illustration is for educational purposes only. Dollar amounts or savings will vary depending on income, state and city tax rules, and other factors.

**Note:** Health Care FSA contributions may be limited for highly compensated employees (HCE). HCEs are not eligible to participate in the DCFSA. For 2024, the 2023 HCE gross earnings threshold is \$150,000. For more information, visit **www.PayFlexDirect.com**.

<sup>\*\*</sup>If you elect a Consumer Directed Health Plan (CDHP) option for your 2024 medical coverage, you will not be eligible to elect a Health Care FSA.

<sup>\*</sup>Note: The 2024 IRS contribution limit will be finalized in late fall 2023.

## Ready to contribute? Key things to know!

If you elect \$1,500 for the year, you'll see a deduction of \$31.25 per paycheck.

#### Participating in an FSA takes a little planning.

You'll need to think about expenses you may have for either or both accounts when deciding how much to contribute. Remember, if you have a Health Care FSA balance left from 2023, it will carry over into 2024, up to the IRS limit. Plus, the IRS has some rules to keep in mind. Here's some key things to know:

- You don't need to be enrolled in a UCOR medical insurance plan or any other type of insurance plan in order to participate in the Health Care FSA or Dependent Care FSA.
- **FSAs have a "USE IT OR LOSE IT" rule.** You can incur expenses until the end of the plan year, and you can carry over up to \$610 of your unused balance.\*\*\* You will lose any remaining funds left in your account at the end of the plan year.
- Once you enroll in an FSA, you cannot make changes to the annual contribution unless you have a qualifying
  mid-year life event. If you make a mid-year change, you may not elect an amount less than what you have already
  spent year to date.
